

M0031 JACKHAMMER HOSE ASSEMBLIES

Rubberworx Jackhammer Hose Assemblies are designed for tough environments, featuring a durable rubber construction reinforced with high-tensile fabric.

They resist abrasion, weather, and light oil, ensuring long-lasting durability.

Crimped with sturdy universal (crowsfoot) fittings, these assemblies deliver a dependable, leak-free connection, making them perfect for demanding construction applications.

Tube	Black EPDM
Reinforcement	Spiral Textile
Cover	Red, Yellow EPDM
Working Pressure	300 PSI
Temperature	-40°F to 210°F
